TESTIMONIAL

LTIS is one of the best school. As first time parent, we went through a number of schools. LTIS always remained on top in our checklist. Less number of students per class, personalised attention, clean and safe infrastructure and a very good track record. LTIS has certified and dedicated counselling staff. It helped my daughter Sanvi Joshi, who had fear of meeting new people. Their teachers are well qualified and introduced my 4 year daughter to concept of school gradually and at her own pace. Their teaching pattern and methods are very good and they consider every student's pace of learning so that no one gets left behind. My daughter now looks forward to her new class every morning.
